St. Basil's Church

Built in 1856 for the University of St. Michael's College, St. Basil's would become the seat for the Basilian Fathers in North America. Designed by architect William Hay it was built in English Gothic style on land donated by Captain John Elmsley. Constructed with the finest white brick available it was said at the time that the College and Church were the finest in this section of the province.

The first marriage performed in the church occurred on January 11, 1858. Thousands more have followed and those between 1858 and 1910 are inscribed herein.

St. Helen's Church

John Breen and Margaret Levens were the first couple wed in the new parish of St. Helen's on January 9, 1876. It had been founded the year previous and St. Helen's was destined to become "the focal point of Catholic life in Toronto's 19th century western suburbs".

Like St. Basil's the Church of St. Helen was to endure later becoming a bustling parish to Italian and Portuguese immigrants. And, like St. Basil's hundreds of marriages performed in the 19th and early 20th centuries at St. Helen's are found in this work.
